### **Macomb County Health Department Medical Reserve Corps Wants You**

MOUNT CLEMENS, Mich. – The Macomb County Health Department Medical Reserve Corps (MCHD-MRC) works to strengthen the community by recruiting and training volunteers who can be ready and able to provide organized assistance to the Health Department and surrounding communities in the event of a public health emergency, large scale disaster, terrorist event or disease outbreak. In 2011, volunteers contributed 683.75 hours to various programs within the Health Department.

Volunteers are always needed from both medical and non-medical backgrounds. If you speak a second language, have experience in graphic design, security, data management, are a college student, retired, unemployed or just looking for a hobby, MCHD-MRC may work for you.

Non-emergency volunteer opportunities are available throughout the year in addition to emergency training and events. For more information and an application, visit: <http://www.macombcountymi.gov/publichealth/EPP/YouCanHelp.htm> or call 586-469-2543.
