Practice makes perfect – mock emergency drill slated for Friday

Mount Clemens, Mich., - Macomb County Emergency Management will convene emergency responders from throughout the county on Friday, October 21 to run a full-scale mock disaster drill on two campuses of Macomb Community College.

The exercise is part of an overall effort to practice and evaluate the county's ability to manage a mass casualty incident. More than 300 personnel representing police, fire, EMS, hazardous materials response teams, and volunteer organizations from across the county are expected to participate.

The drill will begin in the morning and conclude by noon in designated parking lots at Macomb's Center Campus on Garfield Road near M-59 in Clinton Township and South Campus on 12 Mile near Hayes Road in Warren. Both campuses will remain open for normal business during this time.
