Board of Commissioners Increases Accessibility on Web; Joins Facebook

MOUNT CLEMENS, Mich. — News and information from the Macomb County Board of Commissioners has now become more easily accessible on the Web.

The Board launched its informational Facebook page earlier this month, and has acquired the address www.MacombBOC.com for quicker access to its home page on the Macomb County website. Commissioners also launched individual newsletters accessible through their commissioner information pages on the website. The newsletters are expected to appear quarterly. The Board of Commissioners page also received an update in recent months with additional information, such as a list of Frequently Asked Questions and more direct access to its most utilized features.

Visitors who have www.macombcountymi.gov/macomb_gov bookmarked will still be able to access the original address, but the new URL for the Board's page is more user-friendly and easier to remember, said Board Chair Kathy D. Vosburg.

"We've not only made a concerted effort to increase the ease of access to our information on the county website, but are utilizing the popularity of Facebook — which is free and already used by so much of Macomb County — to deliver news straight to residents," Vosburg said.

Facebook users can access the Board's fan page by searching "Macomb County Board of Commissioners" and clicking the "Like" button to receive updates. E-mail updates to www.MacombBOC.com are also available by clicking the link at the top of the page.
