

Welcome back teachers!

It's sign up time for
Environmental Presentations offered by the
Macomb County Public Works Office.

Pollution Solutions! - 3rd & 6th grades

Pollution Solutions helps students relate the water cycle and pollution sources to their daily lives. Students “pollute” a miniature model of a typical Macomb County neighborhood and then watch the effects of a rainstorm. As a conclusion to the presentation the students discuss solutions to those pollution problems. Environmental booklets and stickers are distributed to students.

“This presentation allowed my students to really understand that what they do to the environment really matters!”- 6th grade teacher, Wyandot Middle School

“I learned that polluting our streets can hurt the animals in Lake St. Clair!”-3rd grader, Shuchard Elementary

- **An award winning environmental education program sponsored by Macomb County Public Works Commissioner Anthony V. Marrocco**
- **Free to all schools and community groups in Macomb County-in your classroom or meeting place**
